Sandblasting hose ESB 32 x 8

<p>Application Sandblasting hose for Cleaning and High pressure blasting of Metal, Stone and Concrete surface.</p>	<p>Construction Core: NBR, black, glossy. Reinforcement: Synthetic, Textile braiding. Cover: SBR black, smooth cover.</p>
<p>Technical Features -Highly abrasion resistant. - Lightweight and highly flexible design, easy handling - Wear resistance of the core <math>70\text{mm}^3</math> according to DIN 53516</p>	<p>Fittings: All commercial types of fittings can be used. Outer sleeve with a screw coupling.</p>
<p>Temperature Range: -30°C to +70°C</p>	

Dimensions:

Hose	O.D:	32,0mm
Hose	I.D:	48,0mm
Wall thickness:		8,0mm
Working pressure:		12 bar
Min. Burst Pressure:		44 bar
Min. Bend Radius:		150 mm
Weight:		1,25 kg/m
Coil length:		60,00 m
